

Puget Sound TRT
Thirteenth meeting—Monday-Tuesday, April 16-17, 2001
NWFSC—Montlake Lab, Seattle
DRAFT Agenda

Monday, April 16

- 9:00 am **Delisting criteria**—what form(s) should they take? (**All**)
what can be/should be modeled vs. what can we/should we say something about for delisting goals—interim (Dec. 2001) and final draft (Dec. 2002)? Including freshwater productivity goals. Schedule for reporting goals—June 15th is first deadline for population viability criteria.
- 11:00 **Viability group (Sands et al.)**
discuss approaches to estimating viability of populations, update from Juliet Fabbri on historical estimates, schedule for combining viability results with co-managers by May 15th and then June 15th report.
- Noon **LUNCH**
- 1:00 pm **Viability group, cont'd**
- 3:30 **Population ID document (All)**
discuss changes needed for final document, how to deal with comments
- 4:30 pm **ADJOURN**

Tuesday, April 17

- 9:00 am **Habitat group (Fuerstenberg et al.)**
update from Beth Sanderson and Lisa Holsinger on habitat capacity estimates, grand plan for habitat-related analyses and what technical advice/results we can provide to the watersheds by when.
- Noon **LUNCH**
- 1:00 pm **Looking ahead—“unified theory” (All)**
discuss priorities for TRT projects, including chum and sockeye biology, nearshore assessments, coordination of timelines and workproducts, M&E guidance, effects of/recommendations for H's.
- 2:30 **TRT business (All)**
RSRP interactions, Shared Strategy progress (Step 1, Step 2), emergency hatchery intervention on Cedar, posting TRT workgroup documents to Docushare,
- 4:30 **ADJOURN**
